

Welcome to 2024 District Conferences,

Conference time is a special time for Districts to come together. My favorite part of Conferences and Convention is recognition. It's essential to recognize those who are working hard, not only to make your own communities a better place, but to help Altrusa continue its work.

Here at the International Office we are preparing to make sure your Governors and Board Representatives have everything they need to make your event great. We are here for you, as well, so please reach out to us should you have any questions. We will do our best to assist you or to point you in the right direction.

I'd also like to remind you that everyone is working on these events with you in mind. We want you to have a good time, and we also want you to feel heard. Your feedback is important, so please look out for feedback surveys after conferences to let us know what you've enjoyed and what any suggestions you may have.

Conferences also mean we are getting just a little closer to Convention. It was so lovely to not only see so many of you again, but also to meet so many of you for the first time in San Antonio. I look forward to the same in Quebec City.

Just a quick reminder - 2025 International Convention is taking place in Canada, so you will need a passport. Here in the U.S., passports can take 3 or more months to receive after you've completed the application. I'd recommend submitting your requests sooner rather than later so you don't miss out!

Enjoy Conferences!

David Mena
